RESEARCH PROFILE

My research lies at the intersection of law, communication, and computer science, focusing on technology governance, information privacy, and AI evaluation. I have systematic training in doctrinal legal research, particularly in Chinese law, and I work regularly with computer scientists on legal benchmark design and computational text analysis.

EDUCATION

Degree Programs

- 2024.09 – 2027.07 (Expected) **China University of Political Science and Law**
Master of Law (Research Oriented), College of Comparative Law — GPA: 89.63/100
- Coursework: Comparative Personal Data Law (94); Theory and Practice of Data Law (96); AI Intellectual Property Law (93)
 - Thesis: *The Comparative Study of the “Offense Doctrine” in U.S. Tort Law* (in progress)
- 2020.09 – 2024.07 **China University of Political Science and Law**
Bachelor of Law, Civil, Commercial and Economic Law School — GPA: 87.57/100 (Top 20%)
- Thesis: *On the Application of the Preamble of the Chinese Constitution: Comparative Experience and Promotion Path*

Non-Degree Programs

- 2026.01 – 2026.05 **Fordham University**
Exchange Student, School of Law
- Coursework: Information Law Survey; Information Privacy Law; AI, Cybersecurity and Legal Technology
 - Independent Study: *Stealing Prometheus’s Fire: A Multi-Modality Framework for Regulating AI Knowledge Distillation*
- 2026.06 **University of Hong Kong** — Summer Institute on Computational Social Science
- 2026.07 **WIPO–China (Renmin University of China)** — Summer School on Intellectual Property

3. **Yuanyang Qiu**. “From Content to Algorithm: Regulating Teenager Social Media Addiction Under the First Amendment.” Under review at *Communication Law and Policy*. Presented at AEJMC 2026.

CONFERENCE TALKS

- 2026.08.06 “From Content to Algorithm: Regulating Teenager Social Media Addiction Under the First Amendment.” 109th Annual Conference of the Association for Education in Journalism and Mass Communication (AEJMC 2026), New

Orleans, U.S.

- 2025.11.20 “The Battle for Data Sovereignty: A Comparative Analysis of Competing Cross-Border Data Flow Governing Systems.” 111th Annual Convention of the National Communication Association (NCA 2025), Denver, U.S.
- 2025.06.21 “The Development of Information Privacy Intrusion Doctrine in the Digital Age and Its Enlightenment to China.” Peking University Law School PhD Conference, Beijing, China.
- 2025.04.26 “The Economic Analysis of the ‘Identifiability’ Standard for Personal Information.” Tsinghua University Law School PhD Conference, Beijing, China.

RESEARCH EXPERIENCE

- 2026.05 – Present **Research Assistant**, Institute for Network Sciences and Cyberspace, Tsinghua University
- *AI Deception Project (under review at CHI)*. Worked on a two-phase online behavioral experiment testing whether AI agents in group chats exert social influence on human dishonesty. Contributed to the design of a die-roll misreporting paradigm in which each participant’s true outcome was visible to the whole group, and to the factorial conditions: Phase 1 varied the type and direction of norms delivered by an AI; Phase 2 varied whether peers were presented as humans or AI agents and how many of them misreported. Contributed to results figures and manuscript revision.
- 2025.08 – 2026.01 **Research Assistant**, Alibaba DAMO Academy
- *PLawBench Project (ACL 2026)*. Built a benchmark grounded in how legal practitioners actually work, translating real workflows into three task families — public legal consultation, practical case analysis, and legal document generation — across 13 practice scenarios and 850 questions. Drafted the scoring rubrics from scratch so that answers are graded against concrete, checkable legal points rather than overall impression, producing roughly 12,500 rubric items. Ran the expert annotation side of the project: recruited and trained legally trained annotators, wrote the annotation guidelines, and adjudicated disagreements to keep scoring consistent across domains.
- 2025.08 – 2026.01 **Research Assistant**, Institute for Studies on AI and Law, Tsinghua University
- *Policy Translation*. Compiled technology law newsletters synthesizing legislative and regulatory developments; translated national standard contractual clauses for cross-border data entrustment between Chinese and English.
 - *Comment Drafting*. Monitored guidance from the EU EDPB and UK ICO to track global data governance trends; authored a research report on the EU “Digital Omnibus” reform agenda, analyzing its implications for digital market regulation and platform accountability.

SERVICE

- 2025.05 – Present **Associate Chief Editor**, CUPL Law Review
- *Publishing Management*. Oversee the full editorial cycle — soliciting manuscripts, coordinating double-blind peer review, editing, and production. Supervised the complete pipelines for 2025 Issue 2 and 2026 Issue 1, and serve as the journal’s direct liaison with China Legal Publishing House from manuscript delivery through publication.
 - *Administrative Operations*. Lead the journal’s digitalization reform — working with CNKI to maintain the online portal and to build a new submission and peer-review system and an editorial office management system — and run its external programming, including AI-assisted academic writing workshops for 50+ participants, the annual symposium, and exchanges with legal scholars and peer law reviews nationwide.
- 2023.06 **Teaching Assistant**, CUPL Summer School
- Recorded student attendance and graded coursework assignments.

SKILLS & QUALIFICATIONS

Languages: Mandarin (native); English (fluent)

Qualification: PRC Bar Certificate (Chinese legal professional qualification)

Technical: Claude Code
